Handwritten text on lined paper, possibly a letter or document. The text is mostly illegible due to extreme blurring and low contrast. Faintly visible words include "Dear Sir" and "Yours faithfully".

Printed text at the bottom left, likely a footer or address block. It appears to contain a name and possibly a title or address line.

The first thing I noticed  
 when I stepped out of the car  
 was the cold air. It was  
 a relief after the heat of the  
 car. I walked towards the  
 building, feeling a bit nervous.  
 The door was open, and I  
 went in. The room was  
 empty, and I felt alone.  
 I sat down at the desk, and  
 looked at the papers. I  
 didn't know what to do.  
 I was lost.

4.4. **CONCLUSIONS** *Chlamydia* infection is a common cause of acute and chronic conjunctivitis. The clinical presentation is usually non-specific and the diagnosis is often made by history and examination. The treatment is with oral or topical antibiotics. The prognosis is usually good, but the infection can be recurrent and can cause complications. The prevention is by good hygiene and avoiding contact with infected persons or animals.
